

My name is Matt Claytor. I am excited that I will be your child's homeroom teacher this upcoming year.

I am originally from Armuchee. I graduated from Armuchee High School in 2003. After high school, I attended college at Georgia Tech. I graduated from Georgia Tech in 2008 with a B.S. in History, Technology, and Society. I am currently working on my masters in Educational Leadership from Georgia Southern.

This will be my third year at Unity. I will be teaching 4th, 5th, and 6th grade History and Science. I will also be coaching the varsity boys basketball team. When I am not at school I enjoy playing golf, fishing, and going to Georgia Tech and Braves games.

The Lord has definitely blessed us all with a great opportunity to be a part of what He is doing at Unity Christian School. It is my prayer that throughout the year we will all develop a love and deeper understanding of Christ, which in turn will compel us to glorify Him in all we do. It is going to be a great year and I look forward to seeing your child on the first day of school.
