

Señora Lanier-- Spanish Enrichment

I am so excited about my fifth year at Unity Christian School. Christian education is a life long journey to the truth which is consistent with the word of God. Each year, I learn more fun and exciting ways to recognize and share God's love and creation while partnering with you to develop a Biblical Worldview within your child.

As we learn the Spanish language, we realize what a BIG and awesome world God has created. We discuss God and creation. As we explore themes such as colors, family, numbers and animals, we discover how God reveals himself in and through His creation and how He created with order, precision and purpose. In order to foster a Biblical worldview, Biblical integration is a regular part of class.

After spending numerous years teaching Spanish 1 through Spanish 4 at the high school level, it is a joy to encourage and motivate students to reach their optimum potential without focusing on "grades." Any type of evaluation is to assess acquisition of material for the purpose of moving forward or spending additional time on a given topic to build student confidence.

We have lots of fun learning the Spanish language and Hispanic culture with a variety of activities which require active participation. We play games, sing, draw and share experiences related to Hispanic culture. It is my hope and prayer that our students will enrich their lives today but also foster a love for life long learning and sharing the Gospel.

I am married; thirty four years—wow! I have two sons, two grandsons and a Black Labrador Retriever. After growing up in Atlanta, I appreciate living in "the country" and in a town like Rome. I enjoy learning and seeing God's purpose and plan unfold in everyday life. I like to read and spend time with my family.

I truly enjoy teaching and sharing my love for the Lord and enthusiasm for the Spanish language and culture. I have studied in Spain and taken mission trips to Mexico and Honduras and often share stories from these adventures. We welcome visitors so feel free to join us in Spanish class at any time!
