

I'm Virginia Atkison and this is my 11th year at Unity teaching Kindergarten. I grew up in Rome and graduated from Armuchee High School, then went on to graduate from John Brown University in Arkansas with a degree in Biology education. I came back to Georgia to teach until I married and had our first child. It was then we decided my place was at home.

My husband is Van Atkison and he is employed by Inland Container. We have 4 children- 3 daughters and a son. They all graduated from Armuchee too. When the kids were school age I decided to go back to teaching part-time and taught at Calvary Wee Learn Preschool for 10 years.

I love teaching and look forward to each year as an exciting new experience. My primary goal is for each child to leave Kindergarten with a sense of self worth and a confidence that they can do anything they put their mind to.

I look forward to working with you throughout every event this year and know it is going to be a great year!! My prayer is that God will use me in a miraculous way to influence His kingdom and that every child will understand about God's saving grace and will accept it as their own. Thank you for entrusting your dear child to me. Please pray for a safe and successful year ahead.

In Christ,

Mrs. Atkison
