

### **Blessings & Challenges**

This is an exciting and historic time for Unity Christian School. As we move into the middle of our second decade, we praise God for the increasing number of families who are seeking out the type of Christ-centered education that sets us apart in this community. At the same time, because of this phenomenal response, we are challenged as never before to maintain our standards of excellence while providing an increasingly diverse range of academic, artistic and athletic opportunities to an ever-growing number of students.

One of the most exciting developments at Unity is seeing our graduates successfully transition into college and hearing stories of how they are impacting the world for Jesus Christ. Having grades Pre-Kindergarten 3 through 12<sup>th</sup> has prompted the further development for many of our programs, including missions and athletics. With this growth comes the need for more specialized classrooms, especially in the areas of science, technology, art and music. Furthermore, plans are in place to secure long-term relationships with local organizations for athletic practice and contests.

### **Our Vision**

In 2005, Unity Christian School made the move into its current facility on the corner of Highway 53 and the Rome Bypass. Now, with the help of a professional architectural planning firm, we are preparing a comprehensive plan to further develop the current upper campus facilities to accommodate enhanced academic offerings, fine arts experiences, and indoor athletic team practices and contests. This will address both the critical needs of today and at the same time, will prepare us to better meet the anticipated needs of the future.

The master plan will include a multi-phased approach to accomplishing all that needs to be done to expand our programs. We recognize that the plan is ambitious and it will require several years to be fully implemented. Yet, we believe that the ministry of Unity Christian School is so vital to the youth and families of our community that we are prepared to see this project through to its completion.
