Unity considers core subjects to be Literature, Science, Math, History, Language, and Bible. Standard course grades reported on the transcript are not weighted. Advanced Placement course grade points are weighted 1.0 for the year. Honors courses and Dual Enrollment courses are weighted 0.5 for the year. The GPA is calculated at the end of each school semester.

At Unity, many 8th grade students will take Physical Science and Algebra I which are taught as high school level courses. The Physical Science course is reported on the transcript but not calculated in the computation. The Algebra I course is both reported on the transcript and calculated in the computation.

Class Rank

Class rank is determined by the numerical ordering (from highest to lowest) of student GPAs as calculated at the close of each semester for each year of high school.
